- Bicep
- Terraform.

Certifications & recognitions

- Akamai web foundations
- Akamai Kona site defender

Languages

- English: fluent
- French: fluent
- Arabic: native

Profile

Experienced software developer and solution architect with a proven track record of designing, developing, deploying and delivering scalable software solutions.

Passionate about Integration development / architecture and platform engineering.

Work experience & projects

Integration Consultant Epical, 2025 – present

Cloud Architect Crayon , Paris, 2024 - 2025

Lead cloud-native solution development mainly in Azure but also GCP, AWS, and IBM Cloud, integrating AI to boost app performance and scalability, and advanced DevOps for quicker, more reliable deployments.

Azure Cloud Architect Nordcloud, Stockholm, 2023 - 2024

Expertly enhanced VolvoCars' Inbound Logistics efficiency through leveraging IBM cloud environments, OpenShift, and Cloud Native tools. Delivered innovative solutions to complex cloud and software challenges using advanced software engineering skills.

Cloud Platforms Architect Electrolux , Stockholm, 2017 - 2023

At Electrolux, I served in several strategic cloud and digital architecture roles, where I enhanced and streamlined EpiServer .NET-based CMS platforms across hybrid infrastructures using Azure, IBM Cloud, and Akamai. I led the development of compliant digital marketing solutions with Angular and .NET Core, and supported global marketing initiatives by ensuring scalability, security, and performance. Additionally, I acted as a team lead in mobility and contributed to intelligent bot systems as a web portals Devops engineer earlier in my tenure.

Systems Engineer TCS , Mumbai, 2016 - 2016

Led the mobility division as Team Lead and Systems Engineer, developing solutions with JavaEE and Ionic Frameworks.
As a Data Scientist at GESS, focused on intelligent bot systems using Dialogflow and IBM Watson..

Education

Software development and programming engineer, ESPRIT

2013 – 2016

Statistical engineering and information analysis, ESSAI

2011 – 2013

Preparatory school of mathematics and physics, University of Tunis El Manar

2008 – 2011

Bachelor degree, Bourguiba pioneer school

2008 – [Click or tap here to enter text.](#)
