+ ABOUT ME

My journey as a technologist has endowed me with comprehensive insights into multiple realms of software engineering. Whether it's architecting systems, fortifying cybersecurity measures, pioneering DevOps strategies, or hands-on development, I consistently merge best practices with versatile design patterns. The result? Scalable cloud and edge applications optimized for an unparalleled web user experience.

+ PERSONAL DETAILS

Date of birth

05 Mar 1989

Nationality

Tunisian/Swedish

Marital status

Married

+ WORK EXPERIENCE

- Crayon
Paris
CLOUD ARCHITECT

MAR 2024 - PRESENT

 - Lead cloud-native solution development mainly in Azure but also GCP, AWS, and IBM Cloud, integrating AI to boost app performance and scalability, and advanced DevOps for quicker, more reliable deployments.
- Connectorzzz
Stockholm
FULLSTACK

NOV 2023 - PRESENT

 - Leveraged my expertise in Cloud Architecture and AI to create a microservices suite for managing interactions and skills, hosted on GitHub (thaer899/Connectorzzz). It features an auto-chat generator and collaborative tools, alongside a digital resume CMS, all powered by Python and NodeJS for better engagement.
- Nordcloud, an IBM Company
Stockholm
AZURE CLOUD ARCHITECT

FEB 2023 - JAN 2024

 - Expertly enhanced VolvoCars' Inbound Logistics efficiency through leveraging IBM cloud environments, OpenShift, and Cloud Native tools.
 - Delivered innovative solutions to complex cloud and software challenges using advanced software engineering skills.
- Electrolux AB
Stockholm
CLOUD PLATFORMS ARCHITECT

OCT 2021 - JAN 2023

 - Serve as the liaison between technical and architectural teams, enhancing AWS cloud service security and delivery while leveraging Azure for improved user experiences and optimizing operations with Kubernetes solutions.
- Electrolux AB
Stockholm
DIGITAL PLATFORM ARCHITECT

MAR 2020 - AUG 2021

 - Enhanced European marketing and consumer services by migrating microservices to Azure and played a pivotal role in refining the Akamai Bot Manager for global websites and APIs.

MAR 2019 - FEB 2020

Stockholm

DIGITAL MARKETING BUSINESS ANALYST

- Enhanced and streamlined EpiServer .NET-based CMS platforms across data centers and Azure/IBM cloud, integrating Akamai CDN for EMEA marketing and developing A.C.I.D-compliant digital marketing solutions with Angular and .NET Core.

- Electrolux AB

AUG 2017 - FEB 2019

Stockholm

WEB PORTALS DEVOPS ENGINEER

- Actively managed, fortified, and fine-tuned EpiServer .NET-driven CMS enterprise platforms across both datacenter and cloud platforms like Azure/IBM and Akamai.
- Leveraged Angular and .NET Core frameworks to develop boilerplates specifically designed for Digital Marketing requirements.

- Tata Consultancy Services

JAN 2016 - SEP 2016

Mumbai

SYSTEMS ENGINEER AND DATA SCIENTIST

- Led the mobility division as Team Lead and Systems Engineer, developing solutions with JavaEE and Ionic Frameworks.
- As a Data Scientist at GESS, focused on intelligent bot systems using Dialogflow and IBM Watson.
