

Dear Thaer Saidi,

We write in response to your request to access your personal data ("PD") processed by Nordcloud Hosting Sweden AB ("Nordcloud"), submitted on 27.1.2026.

Having referred to the applicable laws and guidelines of data protection authorities, we consider your request amounts to a complex case on the basis that:

- 1) Given the time period starting from February 2023 that the request covers, and the broad nature of the request [i.e. *Complete personnel and HR files, Performance reviews and appraisal records, Payroll and compensation information, Internal correspondence and records (including emails, Slack or Teams messages, and meeting notes) across both Nordcloud and IBM systems where I am the subject or am specifically referenced*] our initial searches have identified a significant volume of data. This adds considerable complexity to the review process.
- 2) Due to the manner in which the requested data is stored [especially related to instant messaging platforms you are referring to], specialized IT support is necessary to access and extract the relevant information. This has added complexity to processing your request.
- 3) Additionally, responding to your request involves reviewing data that may contain PD of and/or sensitive information about third parties as well as commercially sensitive details. It is necessary to obtain legal advice to determine appropriate redactions and ensure compliance with relevant laws.

In light of the above, we consider it is reasonable, appropriate, and necessary to apply the two-month extension to the deadline for Nordcloud to respond to your request. Nonetheless, we will aim to respond to your request as soon as reasonably practicable, and by no later than 27.4.2026.

Yours sincerely,
Janne Rintamäki
Head of Legal
